Gutierrez-C Combi Microforceps-Scissors

DS-2003102

These microforceps
were designed to
enable grasping
and cutting in a
single manoeuvre.

The instrument permits access to the anterior chamber through a sub-1mm incision,
and facilitates surgical manoeuvres decreasing surgery time.

VITREORETINAL

Ingenuity You Inspire

The range of vitreoretinal micro forceps and scissors from Dentstar offers exceptional quality in a wide variety of instrument styles and sizes. Each instrument is handcrafted by our expert instrument makers from the highest grade materials, resulting in consistent accuracy, outstanding precision, exquisite feel and movement.

The Dentstar style rounded grasp area of the delicate titanium handle enables easy 360° rotation and extremely smooth movement for high precision surgical manoeuvres. A wide variety of instrument tips are available to meet every surgical need. Tips are made of a special stainless steel, which is highly corrosion resistant, resulting in smoother operation and fewer repairs.

The Dentstar collection is available in 20 gauge and in 23 and 25 gauge trocar compatible versions.
